

2018 Onion Show Re-Cap [1]

[2]

Thanks to everyone who came out to Crookham's 2018 Onion show. It was great to hear your growing experiences with our hybrids and to show you what we have coming around the corner. Oracle, Scout, Red Beret and White Cap came out with high marks from Growers. Crookham's new hybrids are in the que to be named shortly but have earned the nick name of "bullet proof" in trials over the last several years. Of these "bullet proof" hybrids OLYS11-162, OLYS08-105 and OLYX11-189 have gained attention in trials through out the Treasure Valley and Pacific Northwest and Crookham Company is in the process of naming these items. Onion Business News has a great report on the 2018 Crookham Onion Show here: <http://onionbusiness.com/crookham-onion-field-trials-show-good-results/> [3]
