

**SALUTE**  
YELLOW SPANISH HYBRID

days length (latitude)	maturity (approx. days)	skin color	bulb size	% single centers	storage (months)	shape
intermediate	100	golden brown	colossal	very high	3-4	globe

## Salute

Salute is a great early to main season intermediate variety that displays a nice golden brown scale and cuts a high percentage of single centers. This intermediate Spanish Onion is a consistent yielder and a uniform producer of jumbo and colossal bulbs. Salute has shown strong tolerance to pink root and Fusarium.

Disease Ratings: High tolerance to pink root, fusarium, and bolting.

The **Celebrate Onion Line** is a new generation of onions that are revolutionary in plant structure. This new line of onions from Crookham Company has been through an aggressive selection process to find traits desirable to the grower. Celebrate Onions have vigorous tall tops that stand out in a field. These tops create a canopy that helps protect the bulbs from damages brought on by too much direct sunlight. In addition the tall erect tops are better suited for chemical application and provide fewer hiding spots for thrips. Please see [crookham.com](http://crookham.com) for more information on the Celebrate Series of Onions.

Disease ratings defined by ISF Position Paper of May 2005. Refer to [www.worldseed.org](http://www.worldseed.org) for more information.
