

**THE ROCK**  
YELLOW SPANISH HYBRID

**ONION SERIES**

days length (latitude)	maturity (approx. days)	color	bulb size	% single centers	storage (months)	shape
long	140	yellow	super colossal	very high	6+	tall globe

## The Rock

The Rock is, as the name implies, a very firm onion that is also extremely vigorous. The Rock is a very late season yellow variety that stores well. It is extremely productive, has a high percentage of single centers and has a rich brown color. It also has the Celebrate plant characteristics of tall vigorous tops that shade the bulbs and make applications easier.

Compare to: Joaquin

Disease Ratings: High tolerance to Pink Root and Bolting. Good tolerance to Fusarium.

The **Celebrate Onion Line** is a new generation of onions that are revolutionary in plant structure. This new line of onions from Crookham Company has been through an aggressive selection process to find traits desirable to the grower. Celebrate Onions have vigorous tall tops that stand out in a field. These tops create a canopy that helps protect the bulbs from damages brought on by too much direct sunlight.

In addition the tall erect tops are better suited for chemical application and provide fewer hiding spots for thrips.

Please see [crookham.com](http://crookham.com) for more information on the Celebrate Series of Onions.

Disease ratings defined by ISF Position Paper of May 2005. Refer to [www.worldseed.org](http://www.worldseed.org) for more information.
