

**TRIGGER**  
YELLOW SPANISH HYBRID

**ONION SERIES**

days length (latitude)	maturity (approx. days)	skin color	bulb size	% single centers	storage (months)	shape
long	135	copper brown	colossal	very high	6+	globe

## Trigger

Trigger has consistent dark copper brown bulbs. It has tall vigorous dark green tops that help in handling various forms of stress and make application processes easier. The hard globe-shaped onions make it an excellent choice for long term storage.

Compare to: Pandero

Disease Ratings: High tolerance to pink root, fusarium, and bolting.

The **Celebrate Onion Line** is a new generation of onions that are revolutionary in plant structure. This new line of onions from Crookham Company has been through an aggressive selection process to find traits desirable to the grower. Celebrate Onions have vigorous tall tops that stand out in a field. These tops create a canopy that helps protect the bulbs from damages brought on by too much direct sunlight.

In addition the tall erect tops are better suited for chemical application and provide fewer hiding spots for thrips.

Please see [crookham.com](http://crookham.com) for more information on the Celebrate Series of Onions.

Disease ratings defined by ISF Position Paper of May 2005. Refer to [www.worldseed.org](http://www.worldseed.org) for more information.
