

**WHITE CASTLE**  
WHITE SPANISH

**ONION SERIES**

days length (latitude)	maturity (approx. days)	skin color	bulb size	% single centers	storage (months)	shape
short	170 - 175	white	jumbo	high	3	globe

## White Castle (2103)

White Castle (2103) has an eye catching white scale that makes you take note of this brilliant white main to late season short day onion. It also has the Celebrate plant structure to make it a grower friendly hybrid.

Disease Ratings: High tolerance to pink root and fusarium, and is tolerant to bolting.

The **Celebrate Onion Line** is a new generation of onions that are revolutionary in plant structure. This new line of onions from Crookham Company has been through an aggressive selection process to find traits desirable to the grower. Celebrate Onions have vigorous tall tops that stand out in a field. These tops create a canopy that helps protect the bulbs from damages brought on by too much direct sunlight.

In addition the tall erect tops are better suited for chemical application and provide fewer hiding spots for thrips.

Please see [crookham.com](http://crookham.com) for more information on the Celebrate Series of Onions.

Disease ratings defined by ISF Position Paper of May 2005. Refer to [www.worldseed.org](http://www.worldseed.org) for more information.
